for
Guinea Pigs

A SINGLE PELLET
TO STOP
SELECTIVE FEEDING

DEVELOPED
AT LOW
TEMPERATURE

SUITABLE
FOR ALL
BREEDS

the best - ALL IN ONE -

Alpha Pro is a new range of products specifically created to meet the nutritional requirements of each species at every stage of their lives. It provides complete and balanced meals for pets and it is also a sugar free, low-calorie, high-fibre diet.

All-in-one food is presented in bite-sized nuggets. Each nugget contains all the necessary ingredients and vitamins for a healthy pet, thus preventing the selective feeding by the animal and hence promoting a diet with all the nutrients.
